## Energy & Logistics

## Our Philosophy.

At Darevel Logistics, we believe that movement drives progress. Our philosophy is built on three core principles: **reliability**, **efficiency**, and **partnership**.

We don't just deliver goods, we deliver on promises. We see every shipment as a critical link in our client's success, and we treat it with the urgency and precision it deserves. By putting our client's needs first and constantly improving how we operate, we aim to become more than a service provider, we aim to be a trusted extension of every business we support.

# Our Target Market

At Darevel Logistics, we specialize in supporting industries where speed, consistency, and product availability are non-negotiable. Our logistics solutions are designed to keep supply chains flowing, whether you're delivering to retail outlets or moving raw materials between production hubs.

01

## FMCG

We help FMCG companies maintain product availability across retail outlets, distributors, and wholesalers. From restocking shelves to meeting promotional demands.

02

## FOOD & BEVERAGE

For perishable and high-volume products, timing is everything. We support food and beverage brands with time-sensitive logistics that protect product integrity and meet retail deadlines.

03

## RETAIL CHAINS

Retail chains require regular, predictable restocking. We provide flexible logistics support tailored to your store network, helping you keep shelves full, reduce overstocking, and meet customer demand.

04

## MANUFACTURING

We support manufacturers with the movement of raw materials to factories and the distribution of finished goods to warehouses or resellers. We handle both ends of the supply chain.

05

## OTHER SECTORS

Our logistics model allows us to serve other sectors, including wholesale trade, pharmaceuticals, and general consumer goods. If your business depends on product movement, Darevel is equipped to deliver.
